TECHNICAL DATA SHEET · ANTIPARASITICS & FLY CONTROL

WELAVER20 OP – Avermectin 2% Powder

Macrocyclic lactone antiparasitic powder for oral use, containing 20 mg avermectin B1 per gram (2%).

Sheep | Pigs | Oral | 1 kg foil bag

TARGET ANIMALS

- Sheep
- Pigs

WITHDRAWAL PERIOD

Sheep	35 days
Pigs	28 days

INDICATIONS

- **Sheep and pigs:** treatment of nematode infections, mange (mites) and parasitic insect infestations.

Mode of action: Avermectin is highly effective against gastrointestinal and lung nematodes of sheep and pigs, and against lice and mange mites. It is not effective against flukes or tapeworms.

DOSAGE & ADMINISTRATION

Animal	WELAVER20 OP per kg body weight	Avermectin B1 per kg body weight
Sheep, pigs	15 mg	0.3 mg

Administration: by mouth. Dose expressed as the product.

ADVERSE REACTIONS

- No adverse reactions have been observed at the recommended dosage.

PRECAUTIONS

- Do not use during lactation.
- Avermectin is fairly toxic; use with caution.
- Highly toxic to shrimp, fish and other aquatic organisms. Do not let packaging with drug residue contaminate water sources.
- Not very stable and especially sensitive to light; observe storage and use conditions.
- Do not use together with diethylcarbamazine; severe or fatal encephalopathy may occur.

Please use all products in accordance with local laws and regulations.
